## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Township of Alamo, Michigan

We have audited the accompanying financial statements of the governmental activities and each major fund of the Township of Alamo, Michigan, as of March 31, 2006, and for the year then ended, which collectively comprise the Township's basic financial statements, as listed in the contents. These financial statements are the responsibility of the Township of Alamo, Michigan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Township of Alamo, Michigan, as of March 31, 2006, and the respective changes in financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

The budgetary comparison information on pages 15 through 17 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Township of Alamo, Michigan, has not presented the management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the financial statements.

*Siegfried Crandall P.C.*

**NOTES TO FINANCIAL STATEMENTS**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

The accounting policies of the Township of Alamo, Michigan (the Township), conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governments. The following is a summary of the more significant policies.

*a) Reporting entity:*

The accompanying financial statements present only the Township. There are no component units, entities for which the Township is considered to be financially accountable.

*b) Government-wide and fund financial statements:*

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the Township. The effect of inter-fund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

*c) Measurement focus, basis of accounting, and financial statement presentation:*

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources, measurement focus, and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

State grants, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when cash is received by the government.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):**

*c) Measurement focus, basis of accounting, and financial statement presentation (continued):*

The Township reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the Township, except those required to be accounted for in another fund. Revenues are primarily derived from property taxes and state shared revenue.

The Fire Truck Fund accounts for the financial resources used for the capital acquisition costs of the Township's fire protection functions. Revenues are primarily derived from property taxes.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in the government-wide financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board (GASB).

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

*d) Assets, liabilities, and net assets or equity:*

*i) Bank deposits* - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Pooled interest income is proportionately allocated to all funds.

*ii) Receivables* - In general, outstanding balances between funds are reported as "due to/from other funds." No allowance for uncollectible accounts has been recorded as the Township considers all receivables to be fully collectible.

*iii) Capital assets* - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks, and similar items), are reported in the government-wide financial statements. Capital assets, other than infrastructure, are defined by the Township as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Governments can elect to account for infrastructure assets either retroactively to June 15, 1980, or prospectively. The Township has elected to account for infrastructure assets prospectively, beginning April 1, 2004.

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	20 - 40 years
Equipment	10 - 15 years
Roads	20 years

**Township of Alamo**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):**

*d) Assets, liabilities, and net assets or equity (continued):*

*v) Fund equity* - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

*vi) Property tax revenue recognition* - Property taxes are levied as of December 1 on property values assessed as of December 31 of the prior year. The billings are due on or before February 14, after which time the bill becomes delinquent and penalties and interest may be assessed by the Township. Property tax revenue is recognized in the year for which taxes have been levied and become available. The Township levy date is December 1, and, accordingly, the total levy is recognized as revenue in the current year.

**NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:**

*Budgetary information* - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. The legal level of budgetary control adopted by the governing body is the activity level. All annual appropriations lapse at the end of the fiscal year. The Township had the following significant budget variations:

<u>Fund</u>	<u>Function</u>	<u>Activity</u>	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
General	General government	Other	40,173	45,320	(5,147)
	Public works	Highways and streets	40,280	47,776	(7,496)
	Culture and recreation	Museum	3,599	9,827	(6,228)

**NOTE 3 - CASH AND INVESTMENTS:**

Deposits are carried at cost and are maintained at various financial institutions in the name of the Township. State statutes and the Township's investment policy authorize the Township to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations.

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the Township will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by federal depository insurance and are uncollateralized. At March 31, 2006, \$424,302 of the Township's bank balances of \$524,302 was exposed to custodial credit risk because it was uninsured and uncollateralized.

The Township believes that it is impractical to insure all bank deposits due to the amounts of the deposits and the limits of FDIC insurance. As a result, the Township evaluates each financial institution with which it deposits funds and assesses the risk level of each institution. Only the institutions with an acceptable estimated risk level are used as depositories.

<u>Fund</u>	<u>Transfer in</u>	<u>Fund</u>	<u>Transfer out</u>
General	\$ 75,196	Fire Truck	\$ 75,196

The transfers to the General Fund represent restricted revenues collected in special revenue funds to pay for debt service costs accounted for in the General Fund.

**NOTE 5 - LONG-TERM DEBT:**

The Township entered into an installment purchase agreement with Fifth Third Bank on January 24, 2003, for the purchase of a fire truck. The agreement consists of a loan of \$222,452 bearing interest at 2.90%; annual principal payments of \$74,151, plus interest beginning December 30, 2003; final payment due on December 30, 2005. The balance was paid off early in July, 2005.

A summary of long-term debt activity is as follows:

**NOTE 9 - RISK MANAGEMENT:**

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation). The Township has purchased commercial insurance for each of these claims and is neither self insured nor participates in a shared-risk pool. Settled claims relating to commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

**Board of Trustees  
Township of Alamo, Michigan**

In planning and performing our audit of the basic financial statements of the Township of Alamo, Michigan, for the year ended March 31, 2006, we considered its internal control in order to determine our audit procedures for the purpose of expressing our opinions on the basic financial statements and not to provide assurance on the internal control. Our assessment of the internal control was limited to obtaining an understanding of the internal control sufficient to plan our audit and did not include tests of controls. However, we noted certain matters involving the internal control and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of internal control that, in our judgment, could adversely affect the Township's ability to initiate, record, process, and report financial data consistent with the assertions of management in the financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily disclose all matters that might be reportable conditions. In addition, because of inherent limitations in internal control, errors or fraud may occur and not be detected by such controls.

The following are reportable conditions that were noted during the audit:

- The Township's accounting records included numerous recording and classification errors that were not corrected in a timely manner.
  - Transfers between bank accounts aggregating \$19,478 were either improperly recorded or not recorded at all.
  - Deposits of \$5,298 were recorded twice.
- The Township expended more than the amount budgeted in certain activity areas and did not amend the budget as required.

This report is intended solely for the information and use of the Township Board, management, and the Michigan Department of Treasury and is not intended to be, and should not be, used by anyone other than these specified parties.
